

Raising the Bar for Deployment Solution

It's NOT about the platform or the framework. It's about completing the job efficiently and effectively.

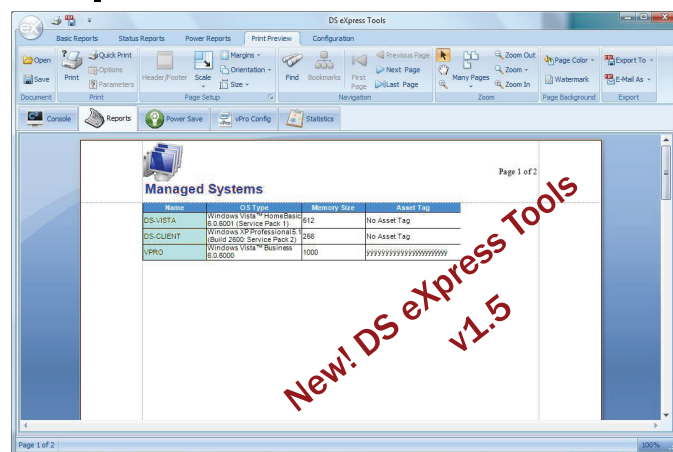

**DS 6.9: Tried and true.
With DS eXpress Tools and Deployment Solution 6.9 you have a choice.**

Try DS eXpress Tools v1.5 free for 30 days in your DS 6.9 environment.

Visit our website to download the new DS eXpress Tools and trial license.

Reports for Mere Mortals

DS eXpress Tools features include:

- Access and integrate multiple DS 6.9 servers from the DS eXpress Tools (DeT) console.
- Create inventory and status reports that include data from all your DS servers.
- **Expanded Thin client** support with license compliance and inventory reports.
- Easy to use report builder provides checkbox selectors with data from **multiple** DS databases.
- No HTTP server required for management tool.
- Pre-defined Windows 7 migration reports.
- Save, export or email user-defined reports.
- Unique subnet report only available with DeT.
- Windows 7 migration reports.
- Create DS computer groups from reports.
- Run DS jobs directly from the DeT console.
- Role based security gives you control over what operations can be performed with DeT.
